

Dehaco Quarantine package type D1000 for people

With the Dehaco Quarantine package, every room can easily be transformed into a closed clean room without making any structural changes. The installation is simple: place the Cleanroom Door against the existing door opening, make sure that any cracks and seams in the cleanroom are properly sealed, connect the air cleaner, hoses and the Longopack and the room is ready for use!

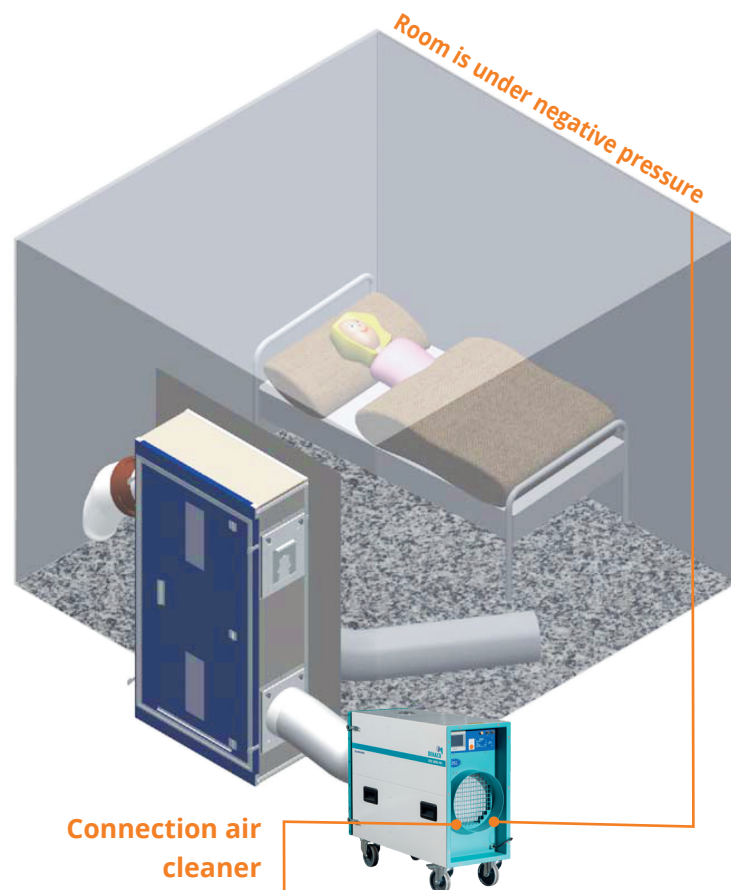

The Dehaco Quarantine package consists of:

Art. nr. 6010.0072
